SUMMARY

Senior Frontend Developer with 5+ years of experience looking to contribute knowledge in web technology. Passionate about going the extra mile to ensure the customer is unquestionably satisfied with the product or service provided. I strive to keep my code transparent and easy to understand. When I develop I always strive to make the code more efficient and easy to manage. In fact, I always pay attention to the smallest details and put in ceaseless effort to create a high-quality work. I am looking to join forces with Red Technologies to continue to grow my skill set while contributing to the positive outcome of making people "richer, smarter and happier". I can help you achieve your goal with my skills.
